PROFESSIONAL SUMMARY

Aspiring Generative AI Developer skilled in Python and modern web technologies (React, JavaScript). Experienced in building AI-powered applications using machine learning and NLP, including predictive models and text classification systems. Solved 100+ LeetCode problems (1500+ rating) with a strong problem-solving mindset. Passionate about working with LLMs and developing real-time GenAI solutions.

EDUCATION

Bachelor of Technology (Artificial intelligence)	2024 - 2028
Newton School of Technology, Rishihood University	Grade: 7.3/10.0
Intermediate (Class XII)	2023 - 2024
Army public school sp marg lucknow	Grade: 74.4%
Matriculation (Class X)	2021 - 2022
Army public school sp marg lucknow	Grade: 89.8%

PROJECTS

Exam Score Prediction ([Github](#)) ([Demo](#)) April 2026

- **Tech Stack:** Python, Streamlit, scikit-learn, Pandas, NumPy, Joblib
- **Description:** ML app that predicts student exam scores based on study habits and lifestyle factors
- **Features:** Real-time score prediction using regression model with multiple input factors (study, sleep, attendance, etc.)

News-Credibility-Monitor ([Github](#)) ([Demo](#)) March 2026

- **Tech Stack:** Python, Streamlit, scikit-learn, NLTK, Pandas, Joblib
- **Description:** News credibility app that cleans text and uses TF-IDF with Logistic Regression to classify news as real or fake
- **Features:** Real-time fake news prediction with text preprocessing

Doctor Appointment System ([Github](#)) ([Demo](#)) March 2026

- **Tech Stack:** Next.js, React, PostgreSQL, Prisma, TailwindCSS, Vonage Video API
- **Description:** Telemedicine platform for booking and attending video consultations with verified doctors
- **Features:** Video consultations via Vonage, appointment booking, doctor verification and availability management, and a credit-based payment system with admin dashboard

Shopsmart ([Github](#)) ([Demo](#)) March 2026

- **Tech Stack:** React, Node.js, Express, Prisma, PostgreSQL, Docker
- **Description:** ShopSmart is a full-stack e-commerce platform with automated CI/CD pipelines and containerized deployment.
- **Features:** User authentication, product management, shopping cart, checkout, admin panel, and DevOps automation.

CERTIFICATIONS

Data Analytics Virtual Experience Program Deloitte ([Link](#)) January 2026

- Completed a job simulation focused on data analytics and forensic technology applications
- Designed and developed an interactive dashboard using Tableau to visualize key insights
- Utilized Excel to clean, classify, and analyze data, deriving actionable business insights
- Strengthened analytical, problem-solving, and data visualization skills through real-world consulting scenarios

SKILLS

AI / ML: Machine Learning, LangChain, GenAI, LangGraph

APIs & Testing: Agile Principles Scrum, Postman, API testing, Cypress, Playwright, Event-Driven Architecture

Cloud & DevOps: Git and Github, Docker, GitHub Actions, Turborepo, AWS

Computer Languages: TypeScript, HTML, CSS, JavaScript, Python, SQL

Databases & Data Tools: PostgreSQL, NoSQL, MySQL, MongoDB

Frameworks & Libraries: Pandas, Matplotlib, Tailwind, Next.js, Tailwind CSS, React Native, Prisma ORM, NumPy, React, Node.js, Bootstrap, Express JS

EXTRA-CURRICULAR ACTIVITIES

- Have Played in District Level Cricket Tournament
- Represented as a Captain of our School Cricket Team at CBSE Cluster in 2024.
